

VIRGO D

VARCAS

01 | High Quality Hinges

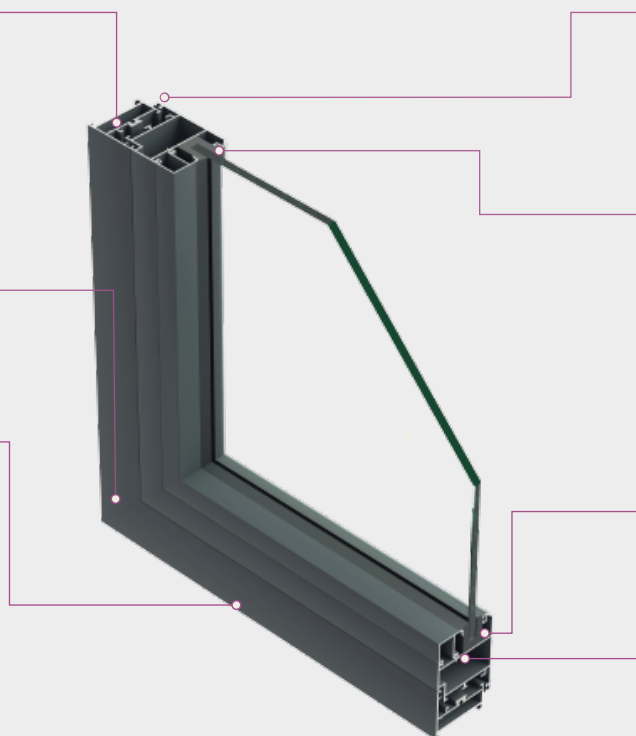

High quality hinges are built to last and can withstand the constant movement and stress that windows endure when opened & closed which ensures that your window operates smoothly.

02 | 45° Joinery

All fitments of sections are done at 45°.

03 | Conceal Provision

A conceal guide is provided in the frame which helps to conceal the whole system for a seamless view.

04 | D - Rubber

This gasket provides a cushioning effect which prevents the shutter rattling or vibrating in the frame, especially in windy weather.

05 | DGU Provision

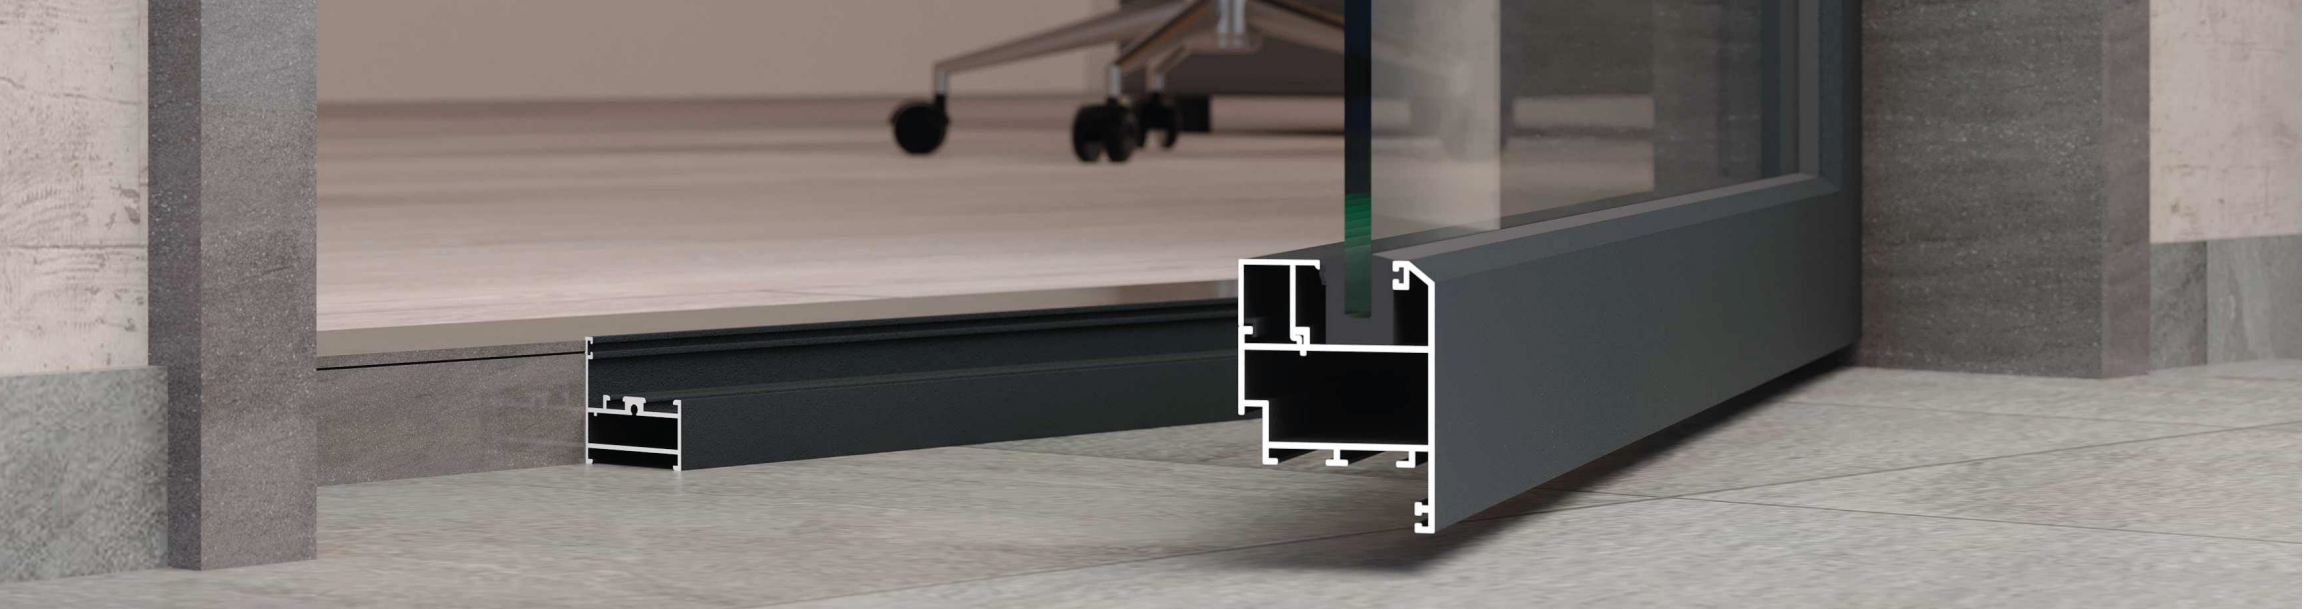

DGU glass offers benefits such as improved thermal insulation, energy efficiency, noise reduction and enhanced security.

06 | Glazing Gasket

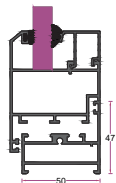

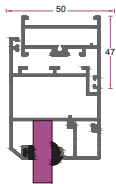

Glazing gasket creates a weatherproof seal between glass & aluminum panel. This also helps to hold the glass securely in place without rattling and shifting of glass.

07 | Adjustable Clip

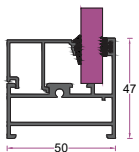

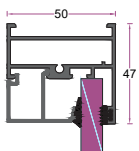

This clip is used to hold glass in position and also adds an extra aesthetic look.
